AUTONOMY

FROM MOTORIST TO MOBILIST

Our company:

Autonomy is the world-leading sustainable mobility platform, with world-first digital and physical events & platforms that attract global influencers and facilitate the key conversations in guiding global change.

Our mission:

We participate in the transition to sustainable mobility by connecting innovators and policymakers dedicated to mobility and smart cities development.

AUTONOMY MOBILITY WORLD EXPO

World's leading annual trade show hosted in Paris each year, including conferences, test tracks, demos, awards, startup challenge and workshops

CITY SUMMITS

The City Summits are hosted in iconic venues in the world's leading cities and focus on a subject of specific interest for the city

365

Webinars, White Papers, newsletters and Autonomy Times are all part of our Knowledge Platform and how we digitally interact with our clients throughout the year

Who we are

AUTONOMY MOBILITY WORLD EXPO (AMWE) is the world's largest annual gathering of international policymakers, institutions, NGOs, corporations, companies, and start-ups focused on sustainable urban mobility solutions welcoming **200+ exhibitors, 300+ speakers, and 8,000+ participants every year in March.**

AUTONOMY MOBILITY WORLD EXPO (AMWE) combines exhibition stands with a Startup Village and City Village, 2 conference programs, test tracks, demos, **B2B & B2G meetings**, and also the Startup Prize and Innovation Awards ceremony.

The **7th edition** of AUTONOMY MOBILITY WORLD EXPO (AMWE), the unique and established international Expo of the mobility ecosystem, will take place on **March 22-23, 2023 in Paris.**

5 reasons to participate

- 1** Meet all urban mobility key leading players, policy makers, governments, corporates, institutions, NGOs, startups
- 2** Develop your international network
- 3** Keep up to date with the latest market developments and regulations
- 4** Network with the entire value chain through Autonomy Business Meetings programme
- 5** Learn about the latest innovations

Autonomy is an amazing showcase of the latest French and international innovations in urban mobility. I was delighted to meet many companies and innovative startups to discuss the new solutions they offer for a shared, cleaner, autonomous, and more connected mobility.

Elisabeth Borne

French Minister of Transport

Autonomy is arguably the largest mobility conference that we have at the moment thanks to Ross Douglas, the CEO. They started 6-7 years ago: it's impressive how it developed. For us it's important that different stakeholders come together here and talk about the future of mobility.

Patrick Ayad

HOGAN LOVELLS – Partner & Global Head of Automotive and Mobility

Together with a community of interest at Autonomy, we are working on a shared autonomous shuttle in rural and peri-urban areas.

Nicolas Marescaux

MAFIC – Directeur adjoint Réponses Besoins Sociétaires et Innovation

Autonomy is a great annual event to meet with the entire mobility sector, discover the latest innovations and collectively imagine the solutions for a smarter and greener mobility in cities.

Louise Pasin

UBER – Communications Lead

AUTONOMY MOBILITY WORLD EXPO is very important for BNP Paribas because it brings together a lot of the key actors in the ecosystem that are here to enable sustainable mobility tomorrow.

Joachim Reinboth

BNP PARIBAS – Co-head of Automotive and Mobility

At Autonomy, we are able to see all current and new trends of the market in terms of mobility.

Gaetano Sciacovelli

VAIMOO Sales & Business

Testimonials

Autonomy fair is an important moment for Troopy, to partner with the most responsible companies, to become one of the major actors of the mobility ecosystem.

François Hoehlinger

TROOPY – Deputy Chief Executive Officer

Autonomy allows us to take the time to meet, to exchange, to share our problems and to confront our mobility needs with the new solutions proposed. It is a space that is necessary, in particular for local authorities, to enable them to follow and become familiar with the latest trends and innovative solutions in mobility – and we need it!

Stéphane Beaudet

Vice-president for **Transport in the Ile-de-France Region, Board of d'Île-de-France Mobilités**

It is always an honour to host the Autonomy trade show here in Paris. Year after year, this event brings together more and more players in the rich mobility ecosystem. For the second year in a row, I was honoured to represent the City of Paris to introduce the show and to exchange with other representatives of cities from around the world in order to work together to find solutions to the major challenges related to transportation and public spaces. It is thanks to the synergies that can take place during major events that we can rethink our cities and territories in order to face the major ecological and social challenges of our time.

David Belliard

Deputy Mayor for Mobility, **City of Paris**

Thank you for your time!
